

USER GUIDE

REQUIREMENT: INSTALL WEB BROWSER TO VIEW THE APPLICATION.

1.INSERT

For inserting a record, press Add new contact link and give the entries in the required field and press the submit button.

The new record is added if the application successfully navigates to the welcome page.

2.SEARCH

For searching the record, give value in the search box in the welcome page and press enter key in keyboard. You will be able to see the searched values.

3.EDIT

For editing, in the contacts that are listed, there is an option called as **edit**, upon clicking on that, it gives out a form to edit. Once making changes, press the submit button.

4.DELETE

For deleting, in the contacts that are listed, there is an option called as **delete**, upon clicking on that, the contact is removed.

5.LIST ALL CONTACTS

List all contact link, when clicked, displays all the contacts.
